CARLI CAMEL FEED

MAINTENANCE CAMEL DIET

Carli Camelids Maintenance Pellets is a complete feed, formulated for the nutritional needs of breeding camelids, based on alfalfa and forages grown and processed in Italy, enriched with cereals and oleo-proteaginous grains.

Carli Camelids Feeds are formulated to provide camelids with the necessary nutrients for optimal growth and best possible productive and reproductive performance. The simple and balanced formulation makes them extremely versatile feeds, suitable for all camelids (dromedaries, bactrians, alpacas, llamas) under different rearing conditions and for all animal's life stages.

100% ITALIAN ORIGIN COMPONENTS 

COMPOSITION

Alfalfa hay, ryegrass, wheat straw, maize grains, sunflower cake, beet molasses, salt, vitamin and mineral premix, mycotoxin binder.

SHAPE AND PACKAGING

Pellet diameter 6 mm.

Available:

- loose;
- in jumbo bags of 1000/1500 kg, with or without pallet;
